TESTING PARAGRAPH STYLES

This is a normal paragraph. Blah blah blah blah blah reengineering NASDAQ meltdown - we're all doomed! blah B2B blah blah blah B2C blah direction.

There follows a paragraph with only "
"

This has 12 points space before and after, set in the style. Blah blah forward-thinking reengineering blah proactive blah blah forecast blah blah proactive. Blah blah resources direction venture capital venture capital blah blah proactive growth blah strategic blah.

This has 12 points space before and after, set inline with XML tag. It works too. Blah growth blah Blah blah blah blah blah blah blah forecast blah blah forward-thinking blah IPO blah NASDAQ meltdown - we're all doomed! blah blah. Blah blah blah blah blah growth blah growth blah blah blah blah direction.

This is normal. Blah blah resources blah blah blah blah resources reengineering blah blah blah blah blah.

his is a title with a background.

This got a background from the para tag

This has newlines and tabs on the front but inside the para tag

This has spaces on the front but inside the para tag

This has newlines and tabs on the front but no para tag

This has spaces on the front but no para tag

This has blue text with pink background here.

Nothing but blue text with pink background.

This has italic text here.

This has **bold text** here.

This has underlined text here.

This has blue and red underlined text here.

green underlining

green *underlining* This has m² a superscript.

This has m₂ a subscript. Like H₂O!

This has a font change to Helvetica.

This has a font change to Helvetica in italics.

This one uses upper case tags and has set caseSensitive=0: Here comes Helvetica 14 with **strong** *emphasis*. The same as before, but has set not set caseSensitive, thus the tags are ignored: Here comes

Helvetica 14 with strong emphasis.

ses fonts with size "14pt" and also uses the em and strong tags: Here comes

strong e nphas and normal again.

This is just a very long silly text to see if the caseSensitive flag also works if the paragraph is very long. This is just a very long silly text to see if the caseSensitive flag also works if the paragraph is very long.
