Test of context-relative indentation

This should be indented 0 points at each edge. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

> This should be indented 36 points at the left. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

This should be indented 36 points at the right. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

> This should be indented 36 points at each edge. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

> > This should be indented a FURTHER 36 points at each edge. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

This should be back to normal at each edge. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

> This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points

at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page. This should be indented 36 points at the left and right. It should run over more than one page and the indent should continue on the next page.

Another test of context-relative indentation

This time we see if the indent level is continued across frames...this page has 2 frames, let's see if it carries top to bottom. Then onto a totally different template.

This should be indented 0 points at each edge. spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam spam

> This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than

> one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the

right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right. It should run over more than one frame and one page, and the indent should continue on the next page. x This should be indented 36 points at the left and 72 at the right.
